Waleed Ilyas

Full Stack Developer | MERN | Solana

waleedilyas99@gmail.com GitHub LinkedIn Remote

Full Stack Developer with 3+ years of experience building web applications with React, Next.js, Node.js, Express, and MongoDB. Works across product UI, APIs, and Solana program development with Rust and Anchor. Focused on shipping clear, responsive experiences with careful scope and implementation details.

TECHNICAL SKILLS

Full Stack: React, Next.js, TypeScript, JavaScript, Node.js, Express, REST APIs, MongoDB, Mongoose, PostgreSQL, Prisma, Redux Toolkit, Tailwind CSS

Solana: Rust, Anchor, Solana, web3.js, SPL Token, Metaplex

Additional: Python, Pandas, NumPy, SQL, Power BI, n8n, Git, GitHub Actions

EXPERIENCE

Buggcy | Full Stack Developer — Remote | 2024-2026

- Build and maintain full-stack applications using React, Next.js, Node.js, Express, and MongoDB.
- Design REST APIs with authentication, role-based access, validation, and centralized error handling.
- Develop Solana features including wallet connections, SPL token transfers, and Anchor program interfaces.
- Integrate real-time updates and third-party services; improve performance through code splitting, image optimization, indexing, and caching.

Invex Tech | MERN Stack Developer — Remote | 2022-2024

- Develop responsive React components from Figma designs using Tailwind CSS and Material UI.
- Build MERN CRUD modules, dashboards, admin panels, and Express APIs with pagination, filtering, and search.
- Improve accessibility and cross-browser behavior; collaborate through Git workflows, code reviews, and deployments.

SELECTED INDEPENDENT PORTFOLIO SHOWCASES

TaskFlow | Next.js, TypeScript, Express

Sprint planning demo with task lanes, priority filters, activity notes, and a local Express JSON API for task creation and status changes. Independent showcase using fictional sample data.

Live demo | Source

SocialSphere | Next.js, TypeScript, Express

Responsive community feed showcase with sample content, local Express JSON API, and browser-side post, save, follow, and comment interactions. No hosted social service.

Live demo | Source

SolMint | Rust, Anchor, SPL Token

Independent showcase with Anchor source for a one-of-one SPL mint and escrow listing, purchase, and cancellation flows, plus local program tests. Not deployed; web demo is not wallet-connected.

UI demo | Program source

SolSwap | Rust, Anchor, SPL Token

Independent showcase with Anchor source for pool liquidity and constant-product swaps, including minimum-output checks and local program tests. Not deployed; web demo is not wallet-connected.

UI demo | Program source

EDUCATION

Bachelor of Computer Science (BSCS) | COMSATS University Islamabad | 2024

Solana Developer Specialization Program, Edversity
